

# PROTECT YOUR SMILE.

Did you know it's now possible to get the same high quality custom mouthguards worn by professionals for as little as \$85. And even less if you have health insurance. Also, there's no need for an expensive visit to the dentist, even though you can have confidence that the production of your mouthguard will be supervised by leading Australian dental technicians.

Here's how it works:

- 1** Order a GAMEDAY home Impression kit online.
- 2** Create an impression of your mouth at home and return it to GAMEDAY in the included Reply-Paid package.
- 3** Using the latest technology, Australian Dental Technicians then carefully produce the custom mouthguard. You will receive your finished product in the mail within nine days from when we receive your impression.

So, don't settle for inferior 'boil and bite' products anymore – order your GAMEDAY custom mouthguard now and know that you're playing with the highest level of protection!
