

Golden Grove Football Club

Communication Policy

This policy outlines the policies relating to internal and external communications.

It represents our Club's commitment to its members, sponsor partners and the wider community.

GGFC views communications as an essential tool in running the Club. To keep members informed, the Club will use a variety of communications tools for official Club business including social media.

All communications originating from Club officers will be respectful, will protect privacy and will be an environment free from bullying and harassment.

By registering to play football at GGFC, members will consent to information being distributed via GGFC communications channels. If a member wishes to opt out of club communications, a written request is to be sent to the Club Secretary.

GGFC expects that all members are respectful when interacting with others via social media channels and are not to use any official GGFC communications channels for personal purposes that do not relate to the running of the Club.

GGFC has approved branding designs and all communications will comply with these to ensure a professional appearance and image of GGFC is portrayed.

The President is the only club officer permitted to speak on behalf of the GGFC in the public domain unless a representative is officially appointed to do so on a specific topic.

All GGFC members will comply with the SANFL Cyber Safety and Social Media Policy (and any subsequent versions):

<https://s3-ap-southeast-2.amazonaws.com/sanfl-media/content/uploads/2019/02/18150449/10.17-Cyber-Safety-Social-Media-Policy.pdf>

GGFC takes its obligations under this Policy with the highest regard and expects members to comply. Should a member be found to have acted outside this Policy, it will result in action as per the Member Protection Policy.

Approval Date	June 2023
Review Date	June 2025
Responsible Officer	President
